Just for reference guys.

To discover the date of manufacture check the following infomation.

Serial number format is YMLLUUUU where Y is the last digit of the year,

M is the month with;
C = Jan, D = Feb, E = Mar, F = Apr, G = May, H = Jun
I = Jul, J = Aug, K = Sep, L = Oct, M = Nov, N = Dec.

LL is the lot number (CPU is programmed by lot number & service bulletins
are also referenced by lot number, not date).

And UUUU is the unit number within the lot.

Hope you find it Useful.
